Shadows and Reflexions

## Picture Description<sup>1)</sup>

A low-angle shot of a modern building with a curved, gridded facade, partially in shadow against a deep blue sky.

## Analysis<sup>1)</sup>

This photograph captures a striking architectural detail, focusing on a modern building's facade. The photograph is dominated by a curved, grid-like structure, with the grid made of square panels. One side of the structure is a deep, vibrant blue, while the other side transitions to a bright, reflective white, suggesting the play of light and shadow. The sharp contrast between the illuminated sections and the dark, shadowy areas creates a dramatic and almost abstract composition. A dark, angular shape encroaches on the right side of the frame, further enhancing the sense of depth and mystery. The deep blue sky in the background provides a stark contrast, emphasizing the building's geometry.
