Picture Description¹⁾

A blurred long exposure captures the movement of lights in an urban setting at night.

Analysis¹⁾

This abstract photograph captures the frenetic energy of urban nightlife. Through long exposure and intentional camera movement, the artist transforms city lights into streaks of vibrant color against a dark, blurred background. Buildings loom as indistinct shapes, emphasizing the motion and fleeting nature of the scene. The swirling patterns of golden and red light create a sense of dynamism and immerse the viewer in the rush of the city after dark.
