Last Light III

## Picture Description<sup>1)</sup>

An abstract shot of light trails at night.

## Analysis<sup>1)</sup>

This photograph captures the chaotic beauty of urban motion through long exposure techniques. Streaks of light, predominantly warm oranges, reds, and yellows, dance across the frame against a dark, muted blue background. The lines, sometimes sharp and erratic, other times soft and flowing, evoke the feeling of speed and the ephemeral nature of city life at night. The abstract composition eschews traditional representation, instead prioritizing the raw energy and visual texture created by moving light sources.
