## Picture Description<sup>1)</sup>

An eye-level, close-up shot captures a striped orange and white traffic cone on a dark asphalt surface.

## Analysis<sup>1)</sup>

This photograph captures a traffic cone in sharp focus against a textured asphalt background. The cone is composed of alternating horizontal bands of bright orange and white. The lighting is dramatic, casting a stark shadow behind the cone and highlighting the coarse texture of the asphalt. A subtle white painted line is visible in the upper right corner of the frame, adding depth to the composition. The overall effect is a study in contrasts: smooth vs. rough, bright vs. dark, geometric vs. organic.
