Big Wheel Behind II

## Picture Description<sup>1)</sup>

An abstract, blurred photograph capturing the motion of lights and buildings at night, creating a vibrant and chaotic urban scene.

## Analysis<sup>1)</sup>

This photograph captures the frenetic energy of a city at night. Through deliberate motion blur and vibrant color play, the artist evokes a sense of urban dynamism. Buildings morph into blurred streaks of orange and brown, contrasting with the ethereal glow of streetlights and neon signs that cut through the darkness. The composition is deliberately disorienting, creating a visceral experience of movement and light.
