Bright Night Dark Lights

Picture Description¹⁾

Abstract cityscape reflection with blurred buildings and water, creating an artistic impression.

Analysis¹⁾

This abstract artwork presents a blurred cityscape reflected in water. The buildings are suggested through soft, elongated forms in shades of blue, brown, and violet, contrasting against a light yellow sky. The reflections in the water are rendered with a similar distortion, creating a sense of movement and fluidity. The overall effect is dreamlike and atmospheric, evoking a sense of place while prioritizing emotion and mood over precise representation.
