Winter Minster

## Picture Description<sup>1)</sup>

Black and white photograph of European city with bridge and church spires.

## Analysis<sup>1)</sup>

This black and white photograph captures a cityscape dominated by the soaring spire of a cathedral. The architectural details of the surrounding buildings, with their gabled roofs and numerous windows, create a sense of depth and perspective. The scene is bathed in a diffused light, highlighting the textures of the stonework and the snowy rooftops. A bridge in the foreground provides a grounding element, leading the viewer's eye towards the majestic structure in the background. The contrast between the intricate details of the cathedral and the simpler lines of the buildings creates a visually striking composition.
