Window in Rain I

Picture Description¹⁾

A blurry view through a rain-streaked window of a street scene.

Analysis¹⁾

This abstract photograph captures the feeling of a rainy day, seen through a window covered in droplets. The world outside is blurred and impressionistic, with indistinct shapes hinting at a car and traffic lights. The light is bright and diffused, creating a sense of tranquility despite the adverse weather. The focus is on the texture and pattern of the raindrops, turning a mundane scene into a captivating study of light and water.
