Shadow Cut I

Picture Description¹⁾

A monochromatic photograph shows a cobblestone street partially covered in shadow.

Analysis¹⁾

This stark, monochromatic photograph captures a cobblestone street bathed in light and shadow. The textured surface of the stones, arranged in a radial pattern, is sharply contrasted by a deep, encroaching shadow that dominates the upper portion of the frame. The play of light on the stone emphasizes their individual shapes and creates a dynamic visual experience, highlighting the interplay between form and void.
