

004660

Maelstrom

Picture Description¹⁾

An abstract, blurred photograph of dark water ripples and movement.

Analysis¹⁾

This abstract photograph captures the frenetic energy of water in motion. The long exposure creates a blurred, almost painterly effect, transforming the surface of the water into a series of swirling grays and whites. The absence of a fixed point of reference invites the viewer to contemplate the ephemeral nature of movement and the raw power of the natural world.
