Empty Nuts

Picture Description¹⁾

A top-down shot of a pile of broken hazelnut shells, some still containing the nuts.

Analysis¹⁾

This photograph captures a textural field of discarded hazelnut shells. The varying shades of brown, from deep chocolate to light beige, create a rich tapestry of organic forms. The fractured and fragmented shells suggest a narrative of consumption and waste, yet the overall effect is one of earthy beauty, inviting the viewer to contemplate the cycles of nature and the ephemeral nature of food.
