Narcissus Pseudonarcissus II

## Picture Description<sup>1)</sup>

A close-up captures the delicate, ruffled edges of a white narcissus flower with a soft, neutral-toned filter.

## Analysis<sup>1)</sup>

This close-up photograph captures the delicate, ruffled edges of a daffodil flower. The sepia-toned palette lends a vintage, ethereal quality to the photograph, emphasizing the soft textures and subtle gradations of light and shadow. The composition draws the viewer's eye into the center of the bloom, creating an intimate and almost abstract portrait of nature's intricate design. The shallow depth of field further isolates the flower, enhancing its beauty and fragility.
