Stripes XIV

Picture Description¹⁾

An abstract pattern of colored stripes diagonally arranged with black outlines.

Analysis¹⁾

This abstract artwork features a series of parallel, slightly angled, vertical stripes in a vibrant color palette. The stripes are composed of shades of green, red, beige, and a dark, almost black color, each outlined with a thin black line. The composition is further divided by oblique lines that create a sense of perspective and depth, resembling a tile or panel structure. The dynamic arrangement of colors and lines creates a visually engaging and modern aesthetic.
