Carousel IV

Picture Description¹⁾

A black and white photograph captures a spinning swing ride at a fair, with blurred figures in motion around the central structure.

Analysis¹⁾

This captivating black and white photograph captures the frenetic energy of a swing carousel at a fairground. The long exposure creates blurred silhouettes of riders in motion, suspended in mid-air, radiating outwards from the illuminated central structure of the ride. The dramatic contrast between the bright lights and the dark, indeterminate shapes of the riders evokes a sense of excitement and fleeting, almost ghostly, presence.
