

# 009293

2020 Memories IV

## Picture Description<sup>1)</sup>

An airplane flying high in the sky leaves a long contrail.

## Analysis<sup>1)</sup>

The photograph captures a starkly contrasting scene within an expansive sky. A long, thick contrail, brilliantly white against the muted grey-blue of the sky, dominates the composition. The contrail, a testament to modern aviation, cuts diagonally across the frame, receding into the distance. The airplane producing the contrail is barely visible at the lower right of the photograph. The overall effect is one of stark beauty, highlighting the interplay between technology and the natural world.
