

# 010222

NY Power Base

## Picture Description<sup>1)</sup>

A close-up shot of a weathered utility pole covered in staples, with a blurred urban background featuring a car and buildings.

## Analysis<sup>1)</sup>

This photograph captures the weathered texture of a wooden utility pole, its surface densely studded with staples, a testament to countless flyers and notices that have been affixed and removed over time. The pole, a dark brown, stands in stark contrast to the faded, almost ethereal background, where a blurred cityscape of brick buildings and parked cars hints at urban life. The muted palette and shallow depth of field draw the viewer's focus to the tactile details of the wood and the repetitive pattern of the staples, creating a sense of history, memory, and the ephemeral nature of communication in the urban environment.
