Framed Mirror

## Picture Description<sup>1)</sup>

A square mirror with red and white checkered edges reflects a street with cars and buildings, set against a backdrop of trees and a clear sky.

## Analysis<sup>1)</sup>

This intriguing black and white photograph captures a convex mirror, framed with red and white squares, reflecting a street scene. The mirror distorts the view, compressing the depth of field and creating a fish-eye effect. The surroundings are dominated by dark, silhouetted trees and buildings, which contrast sharply with the bright reflection within the mirror. This creates a sense of duality and mystery, inviting the viewer to consider the relationship between reality and perception.
