Picture Description¹⁾

A black and white street scene with Swiss flags in color.

Analysis¹⁾

A striking black and white photograph, selectively colored to highlight the Swiss flags, captures a narrow European street scene. The composition is dominated by deep shadows that create a strong contrast with the bright, sunlit facades of the buildings. These buildings are adorned with the vibrant red and white of the Swiss flag, which serve as focal points amidst the grayscale backdrop. The perspective pulls the viewer down the shadowed street, hinting at the life and architecture beyond.
