Bahnhofstrasse IV

## Picture Description<sup>1)</sup>

A low-angle shot captures a modern tram against a backdrop of black-and-white buildings and trees, with a vibrant Swiss flag waving in the sky.

## Analysis<sup>1)</sup>

This striking photograph presents a street scene, predominantly in monochrome, punctuated by the vivid red of the Swiss flag. The flag, a prominent element, is suspended above the scene, adding a splash of color against the muted tones of the buildings and trees. In the foreground, a modern tram dominates the view, its white exterior and strong vertical lines contributing to the composition's dynamism. The selective use of color draws the eye to the flag, highlighting a sense of national pride within an urban setting.
