Bahnhofstrasse IX

Picture Description¹⁾

A street scene in Switzerland with a Swiss flag hanging overhead and a tram running on tracks.

Analysis¹⁾

This striking black-and-white photograph captures a vibrant street scene, punctuated by a bold splash of color. A large Swiss flag dominates the frame, suspended above the street, its red vividly contrasting with the monochromatic cityscape. The photograph is composed along the gentle curve of tram tracks that disappear into the distance, leading the eye towards a tram car further down the street. Buildings line either side, with shops and cafes visible along the sidewalks, bustling with people. The selective use of color draws attention to the flag and the life of the street.
