

# 012562

Lake Zurich Footbridge

## Picture Description<sup>1)</sup>

A monochrome landscape featuring a wooden pier extending into calm water, with distant mountains in the background.

## Analysis<sup>1)</sup>

This black and white photograph presents a long, wooden pier stretching out into a calm body of lake. The planks of the pier, with their distinct parallel lines, draw the eye toward the distant horizon. Along one side of the pier runs a low wooden barrier, while on the other, thin cables are strung between dark, vertical posts, creating a sense of openness and connection to the water. In the background, rolling hills meet the water's edge, providing a serene backdrop to the man-made structure. The monochromatic palette enhances the textures of the wood and the subtle ripples on the water's surface, creating a contemplative and visually engaging composition.
