

# 012747

Over Ulm III

## Picture Description<sup>1)</sup>

A black and white photograph captures contrails streaking across the sky, dissolving into a layer of clouds.

## Analysis<sup>1)</sup>

This black and white photograph captures a dramatic sky filled with the stark contrast of jet contrails and natural clouds. Two distinct contrails slash diagonally across the dark upper portion of the frame, their crisp white lines sharply defined against the inky sky. Below, a dense, textured cloud formation billows, its intricate patterns adding depth and complexity to the composition. The photograph evokes a sense of soaring flight and the ephemeral beauty of atmospheric phenomena, while the monochrome palette heightens the abstract qualities and emphasizes the interplay of light and shadow.
