Over Ulm IV

Picture Description¹⁾

A black and white photograph of contrails forming an 'X' pattern against a dark sky.

Analysis¹⁾

This stark, high-contrast black and white photograph captures a dramatic sky filled with intersecting contrails. The contrails create an abstract, almost geometric pattern against the dark void, evoking a sense of dynamic movement and ethereal beauty. The photograph explores themes of man's impact on the natural world and the fleeting nature of beauty. The cloud formations themselves are rendered with delicate detail, contrasting with the deep shadows that define the composition.
