

# 012771

Time is on my side

## Picture Description<sup>1)</sup>

A photograph capturing a layered view through a shop window, showcasing posters, interior details, and street elements in a distorted and artistic manner.

## Analysis<sup>1)</sup>

This intriguing photograph is a layered exploration of space, perception, and the interplay of different realities. The central focus is a fashion poster with the text "Time is on my side," seemingly positioned inside a modern interior. However, the photograph is not straightforward; it is overlaid with reflections and distortions, creating a composite effect. The viewer is presented with snippets of an office space in the background, along with glimpses of an exterior featuring brick walls and steps. Adding to the complexity is the fragmented presence of large, partially torn posters on the left, disrupting the sense of a singular, cohesive space. The overall impression is one of fragmented memories or dreams, questioning the viewer's sense of place and time.
