Waiting for First Customer III

Picture Description¹⁾

A unique refection of a shop window displaying dresses and a separate display with photographs and a portrait, creating a complex layered photograph.

Analysis¹⁾

This photograph captures a fascinating interplay of reflections and transparency in a shop window. The viewer is presented with a multi-layered scene: the interior of the shop featuring mannequins and displays, the reflection of buildings and a street sign reading 'Neumarkt', and a collection of objects arranged within the shop's display space, including a red typewriter and a portrait of an older woman attached to a black board with white and blue dots. The composition is complex and thought-provoking, inviting the viewer to contemplate the nature of perception and the relationship between the inside and the outside.
