Bird over Horten I

Picture Description¹⁾

A black and white shot featuring a bird in flight near a building.

Analysis¹⁾

This stark, monochromatic photograph captures a bird in mid-flight against a cloudy sky. The bird's silhouette is sharp and distinct, contrasting with the soft grain of the sky. In the upper right corner, a fragment of a building is visible, adding a layer of urban context to the otherwise natural scene. The composition is strikingly simple, emphasizing the bird's freedom and movement while subtly hinting at the man-made environment it navigates.
