Pont du Gard I

## Picture Description<sup>1)</sup>

A stark, high-contrast black and white photograph of an ancient stone aqueduct with multiple arches against a bright sky, partially obscured by foreground foliage.

## Analysis<sup>1)</sup>

This black and white photograph captures a dramatic silhouette of the ancient aqueduct of the Pont du Gard in France. The stark contrast between the solid, dark arches of the aqueduct and the bright sky visible through them creates a sense of grandeur and timelessness. The rough texture of the stone is hinted at, adding to the overall feeling of historical weight. The composition emphasizes the monumental scale of the structure and its relationship to the surrounding landscape, seen faintly through one of the arches.
