Over the Lake Constance II

Picture Description¹⁾

A black and white, high-angle shot of vehicles on a ferry deck traveling through foggy waters.

Analysis¹⁾

This photograph captures a scene aboard a ferry, enveloped in a thick fog that obscures the horizon and renders the world in shades of gray. The photograph is composed of the ferrydeck, its features marked by the presence of mooring posts, chains, and the sleek lines of a car parked nearby. Raindrops speckle the surfaces, adding a tactile quality to the scene. The water, barely visible beyond the ferryyedge, suggests the ongoing journey through a misty expanse. The overall effect is one of isolation and the serene passage through a world muted by the elements.
