Self with F4s

Picture Description¹⁾

A black and white photograph captures a person's reflection in a shop window, holding a camera and seemingly taking a self-portrait with a building visible through the glass.

Analysis¹⁾

This black and white photograph captures a layered reflection, blurring the lines between the interior and exterior worlds. A person is seen holding a camera, taking a self-portrait in a shop window. The camera lens is the focal point, drawing the viewereye to the act of capturing an photograph. The reflection reveals buildings and a light fixture outside, creating a complex visual interplay. The monochrome palette and the graininess of the photograph contribute to a timeless, almost dreamlike quality.
