Swiss Mirror II

Picture Description¹⁾

A black and white photograph of a person taking a photograph of themselves in a round mirror on a pole, with vineyards and trees in the background.

Analysis¹⁾

This black and white photograph presents a circular mirror mounted on a pole, positioned within a landscape. The mirror reflects a road with a figure of a person taking a photograph of themselves, creating a self-reflexive photograph. The surroundings consist of fields with plants and foliage, possibly a vineyard, framing the mirrored scene. The sky is overcast, contributing to the somber and introspective mood of the photograph. The composition invites contemplation on the nature of perception and self-representation.
